

Web marketing solutions for small to medium sized businesses

Richterworks enjoys a broad clientele across the business spectrum. We specialize in web design and redesign, and provide all forms of print marketing support including logo design, brochures, and magazines.

**Why Leah Richter to meet your web needs?**

A website is like an iceberg – you only see part of it. The part you don't see can hurt you!

Leah Richter has a Master's Certificate in Web Design focusing on Coding AND Graphic Design. She has taken many additional courses in Flash, ActionScript, Print Production, inDesign, and Internet Marketing and is constantly learning new methods and improving the ones she has. She is passionate about what she does and loves to learn new things (kind of important in web design!).

She works on an independent contractor basis for PR, Marketing and other Web Design firms creating web sites or web elements (such as embedded or splash Flash). Beautiful isn't enough if it doesn't look as good in the 4 major browsers, work well for the user, and accomplish what you want it to. The architecture needs to be intuitive and the coding robust.

Rest with a professional-contact Richterworks for your web design, resign or update needs.

If you are a marketing, PR, or web design firm, call to see how Richterworks can work for you.
